

Here and here only - write what you really think of Ben

hes a loathsome offensive brute, yet i cant look away. a sexually depraved miscreant who is seeking only to gratify his basest and most immediate urges. His struggle is mans struggle. He lifts my spirit. He transends time & space, he sickens me. I love him

I think hes so honourable to be doing ~~than~~ diligently the necessary work ~~ka~~ with first nations Australians in remote community - so admirable.

I'm really uncomfortable with his face watching me poop while I'm sitting. It's intrusive.

It's cool that he rides a motorbike. Better for the environment & so cool.

I'm so proud he pushed 2 children out of his vagina

I think all the work hes doing against osama bin laden is admirable

The way he tackled the gunman and saved numerous lives blows my mind.

I think I saw them in an anime once? But their eyes were purple. Huge fan ♡♡

Is this my uber driver? Great music. weird chats.  4 stars.

Ben is a feeling. It's something you can't define without first breathing ~~its~~ air. And when its gone only some will truly acknowledge it ever existed.

I think myself a God entrapped by sinful flesh
I really appreciated the time he used his powers of necromancy to banish the eldritch horrors that one time.

The Spongicake incident, wow.

I was at the Salem trials... I think they're a witch... they murdered me.
I think they may not exist; there is no Ben,
only difference
Good guy. We had a ball back in Nam

I've seen him in my dreams - what does this mean? what does this mean??

I think they should draw the mushroom pokemon with a bunch
of different mushroom versions

Do you think he would take a moment to talk about our Lord
and saviour Jesus Christ? I think he would. I think he has.

Did people use this pen before or after wiping?
Would anyone be particularly bothered if I
enforced some sanitising regulations in this space?

here with me during this hard time (my asshole is being violated)

he looks suspiciously similar to someone who ~~was~~ was in a photo
I saw on the social media but his @ never worked so can't be sure
isn't he in the Epstein files?

of his life

I saw them on the news... such a shame what happened

~~concur~~ concur, considering the incident I am sure what would
happen to Ben with friends? Though I hope that the situation on a national level will improve
and we will be able to do better in the future—hopefully near future.

I've seen that at Ben's house there's a photo of
Ben toileting - it's on their family fridge.

I think Ben should find a new place to go toilet
because on their family fridge is not optimal - probably

I heard Ben considers the sun their nemesis. (derogatory)

If I wash my hands before I touch a pen,
should I also wash them after? In case others
have only been washing hands after? I feel this
way about the tap. If I turn the tap on with
dirty hands, clean my hands, but then touch the tap
that my hands dirty, do I wash them again? How do
I turn the tap off, without dirtying my hands on the tap?
I'm not OCD or autistic.

I also think about this re the tap, esp at work with my kindys

Ben and I draw in arm wrestling. Should we rematch?

I think you should.

Ben skips with stiff, straight arms & torso - but... why?

Ben didn't lie about being a duke even when Nike, Alma & Naomi did.

I believe only the frog. Is Ben a frog? Is Ben the frog? I don't believe

I admire they're tenacity
they told me they only bailed once a week

I wonder why Ben is so weird?

I gave Ben my meat.

I did too. He was worried it was too large.

I think we should drain Ben's Sunday. Being on their ~~the~~ Tuesday is already enough.

Do you ever think about Ben's eyes. their translucent brown green?

Their eyes is all I think about. Day and night.

I fear their eyes not a thought, the eyes are the window to
the soul, and Ben has — nevermind. Ben is actually a goblin
changing

I wonder if I met Ben in the labyrinth of my mind.

Hey, quick question. I've been wondering... who is Ben?

To think is to locate oneself in the mind and
my mind is an awful, dreadful place to be... what was
the assignment again?

I'd like to chat with Ben about the weather. shoot the gun together.
I heard that in twin peaks, it was actually him that
killed Laura Palmer but the truth was too real
TV. I miss David Lynch though.

Is Ben the real Ben chicken? Like the ibis?

Hell took a body and discovered Gori
Ben took a shit here and it smelled AN F, L

Ben took a shit at work and it smelled PLEASANT

Is that a moustache on Ben's face? or is that a caterpillar named Avery?

Not to be controversial or anything but I really enjoy Ben's company. I like him.

Ben appears as a goblin in my dreams
what does it mean? asv bu

^{brain tell,} It is not for mortal minds to concern themselves with. Dreams are lies, you
you, spare them with a moment of thought.

I knew Ben before you knew Ben. In a sense I was him first.

Ben was a chipmunk, all furry and mischievous, but now they are an adult
size chipmunk. . . furry and mischievous.

Well, Ben didn't answer in a group messenger - if he is
into a goodbye meeting, so let's do the business
here. GOODBYE Benjamin Velebir & fam. See you
SOON. ♡ B&F = THE SLOVAKS. . . and we forgive you. /g

Bucking Ben is at a bucking bucks just bucking and benning with other bucks orbens.
he thinks he's the best but why
maybe because he's the best.

So... re Ben's Tuesdays... once considered crashable then uncrashable...
is it because Ben values Tuesdays or rest or crashing or work?

No.

Ask a question, yer or no?

I don't think Ben even volunteers at the Benjamin Harris Foundation.
I've seen Ben cross the road to get to the other side.

I can't believe Ben won Eurovision with that cool song 'Bangarang' @

Bruce says he never knew his father. Is Ben Bruce's father?

Now fuck off and get on with your shid, ppl can smell you from London!

Okay.
Do you think god stays in heaven because he too fears what he has created on earth?
and forgot about us.

I think humanity killed God. what does Ben think? His resurrection was "witnessed" in the form of bipolar mania. They didn't want him to be dead. So he lives only in their delusions.

Ben thinks a lot in general but also specifically. He specifically thinks in general terms.

we bully Ben behind his back is that why he don't come over any more?

Maybe. I miss Ben. That B looks like a heart. shouldn't threaten to crash Tuesday, I guess.
